Carla Bustos

Industrial Designer

I'm a Mexican Designer with a special taste for order and pleasant environments. I am good at sketching ideas, developing production lines, and at creating virtual visualization. Currently I work as a freelance designer and at my personal brand.

I'm proactive, fast learning, and I have good emotional communication. I'm very interested in Interior Design, and I would like to improve more in Sales, I was short time involved, and I'm good at it.
